Material is REPURPOSED

We operate innovative recycling and waste solutions that help fuel the continuous reuse of materials. In 2023, we opened or upgraded **eight** recycling facilities.

Energy is RENEWABLE

We leverage advanced technologies to turn waste into energy that powers communities and reduces emissions. In 2023, we utilized **43%** of captured landfill gas for beneficial use.

Communities are THRIVING

We collaborate to strengthen the resiliency of the diverse places where we live and work. In 2023, we donated **\$18.7M+** to charitable causes.

2024 Sustainability Report

BUILDING TODAY, FOR TOMORROW®

We're leveraging our infrastructure, scale, expertise and world-class operations to make progress toward three bold ambitions.
